

Inspired by Monet Camp 2026

Project 2: Monet Swans

Pastel Paper with Oil Pastels & Color Pencils

1. Have students choose their **pastel paper** color and write their names on the back.

2. Using a pencil, guide students step-by-step through the drawing of the project.

3. Once the drawing is complete, have students trace over all pencil lines with a **thin black Sharpie**.

   Do not trace over dotted lines - those are the reflections!

   They should also fill in any areas that are meant to be solid black.

4. Use **colored pencils** to guide students through coloring the small details like the beaks and eyes.

5. Switch to **oil pastels** and guide students through the coloring of the pastels!

   Encourage students to use small short strokes to achieve the “Monet” style!

   Use a light touch when blending colors - we want to keep the texture!
